

ENGRAVING OF THE CUBES

Your very own cube

You have the opportunity to design your urn by yourself.

The engraving is always in golden brown contrast to the selected rock type. Because they are handmade natural products, each cube is unique from the ground up.

Due to the different degrees of hardness of the raw material, not every stone can be engraved with the equal precision. Certain motifs are therefore not suitable for all cubes.

In order to achieve the best possible result, we offer an individual advice.

This is the only way we can ensure that you receive the one-off that really meets your requirements.

Price overview

- Name & date CHF 99.-
- Motif from a template CHF 99.-
- Self-designed motifs CHF 149.-

The prices vary depending on the type of rock.
